

Assignment No 3

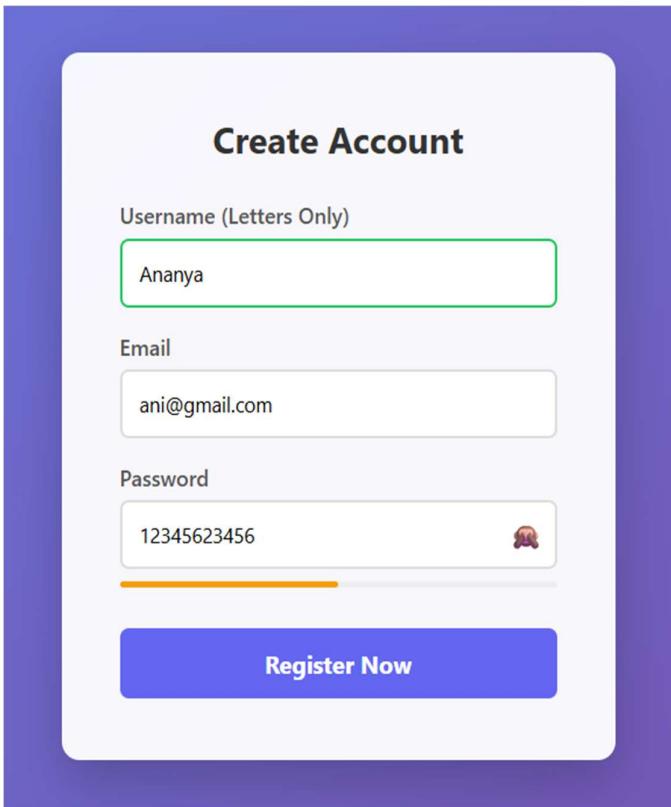

Part A

Part B:

The screenshot shows a 'Create Account' form on a purple background. The form has a white header with the title 'Create Account'. Below it is a 'Username (Letters Only)' field containing 'j.e.g. John Doe', which is highlighted with a red border. A red error message 'Numbers and special characters are not allowed!' is displayed below the field. The 'Email' field contains 'hello@example.com'. The 'Password' field contains 'Min 8 characters' and includes a visibility toggle icon. At the bottom is a blue 'Register Now' button.

The screenshot shows the same 'Create Account' form on a purple background. The 'Username (Letters Only)' field now contains 'Ananya' and is highlighted with a green border, indicating validation success. The other fields ('Email' and 'Password') and the 'Register Now' button remain the same as in the first screenshot.

Create Account

Username (Letters Only)

Email

Password

Register Now

127.0.0.1:5500 says

Success! Form is clean and strictly string-based.

OK
